THE BEST PERFORMING AND MOST SECURE ULTRA LOW TEMPERATURE FREEZER

The new Integraline is developed to target the most critical users on the market. The Integraline features our independent TRUE DUAL™ cooling system that consists of two independent systems offering you the best security.

In case of an unexpected failure on one of the independent cooling systems, the other will maintain the freezer temperature of at least -70°C. Thereby, your samples will not be affected by any challenge caused by an unexpected system failure, until service is provided. This is possible due to our highly reliable independent TRUE DUAL™ technology.

BENEFITS

- ▶ TRUE DUAL™ technology protecting the stored items.
- ▶ Low heat dissipation due to efficient cooling of compressors with our Airflow Control system - ensuring a pleasant work environment and savings in running cost.
- ▶ Direct cooling for optimized temperature stability and uniformity, even with multiple door openings.
- ▶ Low noise level providing a better work environment.
- ▶ Low energy consumption made possible with ECO mode and ultra-efficient Vacuum Insulated Panels.
- ▶ Built-in CO₂ backup controller system for extra security for your valuable samples.
- ▶ Self-diagnostic function to secure that your alarm system is always working correct.
- ▶ Adjustable shelves to accommodate any storage need you might have.
- ▶ Insulated inner doors minimizing cold loss during door openings.
- ▶ Easy removable inner doors makes the defrost and maintenance procedure easy.

MODEL	ULUF P390	ULUF P500	ULUF P610	ULUF P820
Item code	DAI 1800	DAI 1805	DAI 1810	DAI 1815
Dimensions exterior WxDxH (mm)	755x859,5/1002*x1999	895x859,5/1002*x1999	1035x859,5/1002*x1999	1285x859,5/1002*x1999
Capacity (L)	381	496	610	815
Temperature range (°C)	-40/-90	-40/-90	-40/-90	-40/-90
Max. no. of samples (pcs)	25.200	33.600	42.000	58.800

* Depth of 1002 mm includes detachable airflow management and noise reduction system
