

# Specijalna ponuda! Laboratorijski mlin sa kamenovima za žitarice

# KEFO<sup>®</sup>

SINCE 1949

PROMOCIJA

1300,00€

The mill construction is entirely made of stainless materials (stainless steel and aluminum).  
The mill is intended for both batch and continuous grinding process

- Power of electric motor 1.1kW
- Control - frequency controller (up to 6000 rpm)
- Manufacturing Material - AISI 304 / 304L stainless steel
- Fineness of the grinding material at the outlet depends from the gap between the tools and it can be set from 1- 0.1 mm
